- 180° screen setup: 3 x 26" 1080p Full HD
- HQ stereo sound with subwoofer
- Custom-made control devices with semi-professionnal force-feedback

XL simulator
Hexapod born from aeronautical technology

Complete immersion with breathtaking sensations!
Data sheet:

Structure: Steel / aluminium
Weight: ~ 450 kg
Height min. / max.: 2500 / 3000 mm
Width: 2000 mm
Length: 2000 mm
Voltage: 380V 3 ph.
Amperage: 2.8 A

Video: 3x Full HD 1080p 26” displays
Steering wheel: Professionnall wheel with force feedback and paddles
Pedal set: Professionnal pedal set with linear potentiometer

6 degrees of freedom

Angular travel:
- x’, y’, z’: 40°

Linear travel:
- X, Y, Z: 600 mm

Acceleration:
- 2G

Max. speed:
- 600 mm/s

Certification:
- 2006/42/CE conformity
